COMMISSIONER & PLACEMENT GUIDE

Safe placements. Strong professional partnerships. Measurable progression.

South London accommodation and support for young people and adults who need stability, structured independence work and a clear pathway forward.

STRUCTURED MATCHING

Assessment, compatibility and transition planning

EET PATHWAYS

Functional Skills, training and employment progression

VISIBLE OUTCOMES

Goal-led key work and evidence of progress

STABILITY → SKILLS → OPPORTUNITY → INDEPENDENCE

SUPPORTED ACCOMMODATION 16–18
SUPPORTED LIVING 18+ / SOUTH LONDON

Why Pearl Connexions?

We work best where a placement needs more than accommodation alone. Pearl combines the right environment, consistent relationships, purposeful support and active professional partnership to help people move forward.

THE RIGHT MATCH

We assess need, wishes, risk, geography, compatibility and regulatory fit before offering a placement.

STABILITY FIRST

Consistent staff, clear plans and early review help reduce avoidable placement disruption.

PROGRESSION

Support is linked to practical goals rather than simply recording hours delivered.

YOUNG PERSON'S VOICE

Goals and plans are built with the individual in ways appropriate to their communication and understanding.

MULTI-AGENCY WORKING

Social Care, Leaving Care, Youth Justice, health, Police and education are part of the plan where relevant.

EARLY ESCALATION

Emerging concerns are shared and reviewed before they become placement breakdowns.

Who we can support

Subject to assessment, matching and the regulatory scope of the individual service, Pearl supports young people and adults who may present with autism, learning disabilities, mental health needs, trauma, contextual safeguarding concerns, exploitation, offending histories and more complex support needs.

WE DO NOT DEFINE PEOPLE BY RISK. WE UNDERSTAND RISK ALONGSIDE STRENGTHS, ASPIRATIONS AND CONTEXT.

Our South London provisions

Different environments allow us to consider fit, not simply vacancy. Current availability is confirmed at referral stage.

VAUXHALL - CRIMSWORTH

CQC Supported Living | 18+ | Male

Capacity: 3 bedrooms
Environment: Shared supported living
Facilities: 2 shared bathrooms
May suit: adults progressing towards greater independence who benefit from excellent transport and access to education, employment and community opportunities.

COULSDON

CQC Supported Living | 18+

Capacity: 3 bedrooms
Environment: Shared supported living
Support: Structured around assessed need
May suit: adults developing independence while continuing to benefit from planned support and a residential South London setting.

SOUTH CROYDON - HEATHFIELDS

CQC Supported Living | 18+ | Female

Environment: Female-only
Privacy: allocated bathroom arrangements
May suit: women for whom gender matching, personal space and a quieter residential environment are important considerations.

NEW ADDINGTON - MILNE PARK

CQC Supported Living | 18+

Focus: preparation for adulthood
Support: independence, EET, community engagement, relationships, budgeting and practical life skills
May suit: young people ready to develop independence within an appropriately supported environment.

A VACANCY DOES NOT AUTOMATICALLY MEAN A MATCH.

We consider the person's wishes, needs, risks, location, compatibility and existing residents before confirming suitability.

04

From NEET to next step

For a young person who has disengaged from education, simply telling them to find a course or job rarely addresses the barriers behind disengagement.

PEARL CONNEXIONS

Placement stability • routines • confidence • travel • applications • CVs • interview preparation • sustained engagement

LEVI AP PARTNERSHIP

Alternative Provision partnership providing an additional route for young people to access Functional Skills where appropriate.

RE-ENGAGE → FUNCTIONAL SKILLS → EDUCATION / TRAINING → EMPLOYABILITY → EMPLOYMENT

What this means for commissioners

01 A practical route back into learning for young people who are not ready for a conventional education pathway.

02 Accommodation, daily routines and EET goals can be worked on together rather than as separate interventions.

03 Progress can be reviewed through attendance, engagement, Functional Skills activity and the individual's wider independence goals.

04 The focus remains on the barriers affecting the individual, not simply the NEET label.

STABILITY CREATES THE PLATFORM. EDUCATION AND OPPORTUNITY HELP BUILD THE NEXT STEP.

Youth Justice & contextual safeguarding

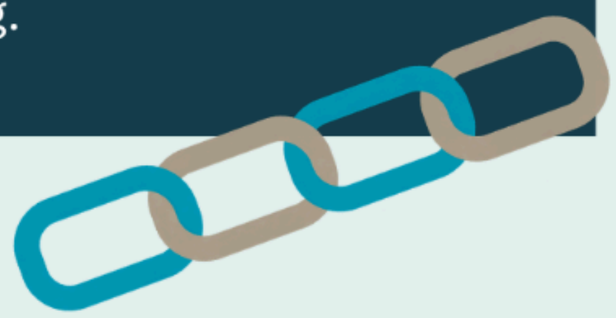

Where offending, exploitation, peer association, bail conditions or community risk are present, Pearl works with the wider professional network so these issues are actively reflected in placement planning and support.

HACKNEY YOUTH OFFENDING TEAM

Independent professional feedback has recognised Pearl's work around complex bail conditions, professional information sharing, responsiveness and child-first practice.

MERTON YOUTH JUSTICE SERVICE

Independent professional feedback has highlighted trusted relationships, advocacy, positive role modelling and collaborative multi-agency working.

Our role within the professional plan

01 Support attendance at appointments and engagement with agreed professional plans.

02 Help the individual understand expectations, conditions and consequences in an accessible way.

03 Recognise emerging contextual risks and share relevant concerns appropriately.

04 Use relationship-based and restorative practice while maintaining clear boundaries.

05 Contribute to professional reviews, safety planning and placement stability.

THE PERSON FIRST - NOT THE OFFENCE FIRST.

A planned start - not just a move-in date

Urgency should mean responsiveness, not bypassing assessment. Our transition process is designed to establish fit, clarify responsibilities and give the placement the strongest possible start.

1

REFERRAL REVIEW

Needs, risks, wishes, legal/regulatory fit and information gaps.

2

PROFESSIONAL DISCUSSION

Clarify history, current plan, desired outcomes and key risks.

3

ASSESSMENT & VIEWING

Meet the individual and explore the environment wherever practicable.

4

MATCHING

Compatibility, geography, contextual safeguarding and existing residents.

5

TRANSITION PLAN

Actions, owners, information transfer, introductions and agreed start.

6

PLACEMENT & EARLY REVIEW

Check whether the support model is working and adjust where appropriate.

CLEAR OWNERSHIP. CLEAR EXPECTATIONS. A SAFER START.

How we evidence progress

Powered by Charting Your Path®

Support should have a purpose. We establish a starting point, agree goals with the individual, record the work undertaken and review what is changing over time.

BASELINE → PERSON'S GOALS → PLANNED WORK → PROGRESS MEASURE → REVIEW → NEXT GOAL

Examples of progress evidence

EET engagement / Independent living / Appointment engagement
Emotional regulation / Community participation / Budgeting
Relationships & safety / Tenancy readiness

WE DON'T JUST RECORD HOURS DELIVERED.
WE WANT TO EVIDENCE WHAT CHANGED AS A RESULT.

A workforce prepared for the person

Training should change practice. We focus on staff understanding how to communicate, recognise distress, make appropriate adjustments and respond safely to the individual in front of them.

OLIVER McGOWAN

Mandatory Training on Learning Disability & Autism

AUTISM PRACTICE

Specialist autism training, communication and person-specific preparation

TRAUMA-INFORMED

Understanding behaviour in the context of experience and relationships

SAFEGUARDING

Safeguarding, contextual risk and professional escalation

MENTAL HEALTH & RISK

Risk management, de-escalation and placement-specific planning

REFLECTIVE PRACTICE

Professional boundaries, supervision and management oversight

Autism & learning disability in practice

01 Communication differences and accessible information.

02 Sensory needs and environmental considerations.

03 Predictable routines and preparation for change.

04 Reasonable adjustments and person-specific support.

05 Recognising distress early and reducing unnecessary escalation.

When things become difficult

Placement stability does not mean expecting there never to be difficulties. It means identifying change early, understanding what is happening and responding before difficulties become placement breakdown.

EARLY WARNING → MANAGEMENT REVIEW → PERSON'S VOICE
→ RISK / SUPPORT REVIEW → PROFESSIONAL LIAISON
→ REVISED PLAN → MONITOR

What commissioners should expect from us

THE RIGHT MATCH

We would rather decline an unsuitable referral than create an avoidable placement breakdown.

VISIBLE PROGRESS

Support should have clear objectives and evidence of what is changing.

OPEN COMMUNICATION

Where there are emerging risks or concerns, the professional network is involved early.

ACCOUNTABILITY

Management oversight, review and clear ownership sit behind frontline support.

Nothing about me without me

What matters to the individual comes before what the service wants to do. People should be involved in their assessment, goals, key-work priorities, reviews and transition planning in ways appropriate to their communication and understanding.

PEARL

CONNEXIONS

WHERE EVERY CONNEXION COUNTS

THE PEARL DIFFERENCE

WE DON'T START WITH:

“We have a room available.”

WE START WITH:

“Is this the right environment, the right support and the right team for this person - and what would a successful placement look like?”

STABILITY → SKILLS → OPPORTUNITY → INDEPENDENCE

MAKE A REFERRAL OR ARRANGE A SERVICE DISCUSSION

Send a referral or anonymised profile and we will review fit, current capacity and next steps.
